About me

I am a trained multimedia designer with
core competencies in UI, UX, communi-
cation and enterprise. My elective was
Design Across Borders, with Dutch stu-
dents. I can develop concepts, prepare and
implement digital marketing.
Am doing a Batchlor in Web Developer,
advanced programming, which I am taking
a break from.

In parallel I have worked with people in
different jobs and can therefore take ini-
tiative, keep track and handle conflicts.

I see advantages in working in teams, but
often work faster alone.

Education

(Delvis) 2021 Web developer, EAAA

(Finished) 2019 Multimedia design, KEA

(Partly) 2013 Financial advice, Niels Brock
